TADMUR HOLDING

Tadmur Holding W.L.L. is one of Qatar’s leading business conglomerates, owning and operating a number of multi-disciplinary subsidiaries across the country. Since inception in 1985, our companies have catered to various business sectors through a wide range of products, services and solutions.

Our goal is to inspire and support all of our subsidiaries in continuously reflecting our collective identity as a leading industrial group in Qatar. As Tadmur Holding’s presence in Qatar approaches its three-decade milestone, our subsidiaries utilize our collective experience in the local market to provide the best products, services and business solutions that benefit all our clients and stakeholders. Moreover, the pride with which we uphold our Qatari roots drives us to ensure that, at the root of each corporate undertaking, is the vision of deeper integration into the country’s economic landscape and the objective of a significant contribution towards the realization of Qatar’s National Vision for 2030; all while maintaining unrivalled global standards.

Each of Tadmur’s subsidiaries flourishes under the leadership and perseverance of dedicated teams of skilled, experienced professionals. Each individual team possesses a vast body of knowledge and expertise in their respective fields, and is led by managers and supervisors whose track records speak for themselves. As our collective workforce engages in realizing our common goals every day, Tadmur Holding provides them with the support and resources required for achieving optimal productivity, namely through offering them a selection of specialized coaching and knowledge sharing platforms. While our companies function independently, the synergies achieved have led to the growth and expansion that has placed Tadmur Holding and its group of companies amongst Qatar’s market leaders in multiple industries.

We invite you to read about Tadmur Holding’s group of companies to learn more about each subsidiary and its range of specialties.
INSPIRING THE GROUP
INSPIRING THE FUTURE

MISSION
To be a reliable partner to all our customers.
To be a valuable asset to all our stakeholders.
To be an employer that recognizes talent and encourages knowledge sharing across divisions.
To rigorously contribute to the industrial and commercial Development of Qatar.

The company specialized in Areas such as Logistics, Facility managements, warehouses Managements and Auto mobile services.
Norwood Partition Solutions is a UK-based company specializing in manufacturing and installing high-grade demountable partition systems, serving its local market from 4 UK production facilities. The company recently started serving the Middle East market from its full-fledged factory in Doha, which it has gained a remarkable foothold across the region, namely in Kuwait and KSA. Moreover, Norwood is currently in the final planning stages for the construction of a new state-of-the-art manufacturing facility in Doha to serve the whole GCC area.

Norwood’s partition systems are designed to allow versatility across the space and durability throughout the product's lifecycle. We have completed a number of schemes over recent years, including wall lining systems to office spaces, data centres, universities, clean rooms and medical and healthcare facilities.

Current corporate accounts include Jaguar Land Rover, Astra Zenneca, KPMG and Bentley. We are now on most Preferred Vendor Lists within Doha and currently have multiple projects in the pipeline across the region.

The systems are fully certified from 30 minutes to 2 hours and approved by the Civil Defense in Qatar. All the wall systems are also certified for sound ranging from 41 STC up to 55 STC.

Projects completed in Doha include the interior refurbishment of QNCC, The GMP Laboratories, The Library Complex at Qatar University (images attached), The New R&D Facility for Qatar Foundation at Education City, several new data centre’s for Ooredoo and a new HQ Building at Energy City.
With our own design team sitting in Doha, we are happy to work alongside our clients' teams/resources on all project management aspects. Listed below are the key sectors Norwood specialize in:

- Education Pods
- Wall Lining System
- Atrium Walls – Solid and Glass
- Walk on Ceilings
- System Walls
- Data Rooms Panels
- Clean Room Panels
- Medical Bed Head Units
- High Specification Office
Tadmur Holding is proud to announce its newest addition of companies in ASAS Construction Chemicals with a state of the art facility to produce the needs of the construction industry in Qatar. As Qatar, under the able patronage of Shk Tamim Bin Hamad Al Thani continues its growth path towards Qatar National Development plan 2030 and its committed endeavor to host the 2022 World cup football, we as Tadmur would like to be a part of this growth story through this Make in Qatar initiative. Tadmur Holding has been engaged in the trading of construction Chemicals in Qatar since 1995 and has built a strong reputation for itself by catering to the industry in several of the important landmarks of the country.

ASAS will be striving to excel the local standards and contribute to a healthy spurt in the home grown share of the market potential. With the rise in non-oil based spending by the government over the past few years there has been a substantial rise in the infrastructure projects demanding higher standards and formulations to meet the complex needs of these projects.

This necessitated step up of imports from players across the world leading to the rise of market share of global players. ASAS’s impetus would be to localize a major extent of this share through local production by setting up a unit with adequate capacity and utilize our goodwill and marketing capabilities to promote our business. Additional capacities in the local market would also prevent artificial price increases and curtail project cost escalations.
With our own design team sitting in Doha, we are happy to work alongside our clients’ teams/resources on all project management aspects.

Listed below are the key sectors Norwood specialize in:

- Education Pods
- Wall Lining System
- Atrium Walls – Solid and Glass
- Walk on Ceilings
- System Walls

• Medical Bed Head Units
• High Specification Office

SEGMENT

ASAS will embark on this journey with the involvement of technical expertise and unique formulations that will provide the market with innovative solutions to the construction industry. ASAS would be engaged in the manufacture of construction chemicals in the following segments:

- Chemical Admixtures to Concrete
- Concrete Repairs
- Waterproofing
- Surface Treatments
- Industrial Flooring
- Adhesives and Bonding Agents
- Grouts and chemical Anchors
- Protective Coating
- Sealants
The economy of Qatar relies on Oil & Natural gas sector as two main revenue sources, this have made Qatar one of the world's fastest growing & higher per capita income countries in recent years and foreseen as one of the most stable country in GCC region.

The current economic policy of the country is focused on increasing private & foreign investment in non-energy sector line with Qatar national vision 2030 to transform the country into a knowledge based country.

As a result of that, the government shall be investing more on region infrastructure development projects for the long as well as 2022 FIFA WORLD CUP requirements.

In light of the aforementioned, Tadmur Holding board of directors decided to be in line with this vision by establishing a manufacturing pump plant in Qatar to meet market demand.

Tadmur Holding has remained a key contributor to various business sectors in Qatar with its subsidiaries’ diverse range of products and services. As one of Qatar’s largest business conglomerates, we identify our professional victories as those which create value for our clients’ quality of life, as well as for the State of Qatar’s developmental aspirations.

Our growth and expansion within the country is not just a result of our professional achievements, but is also largely due to our generation-old familiarity with the local market; which continues to help us gain business partnerships with some of the most prominent organizations in Qatar and around the world.

From the Holding level and all the way down to each of our subsidiaries, the Tadmur family works together in a continuous effort to drive synergies amongst the group companies. This is the primary force behind our success and identity as a solid group operating a growing, multi-disciplinary platform of businesses. We do our best to ensure that the work environment in each firm is conducive to the development of our employees, by instilling best industry practices across all business units. Keeping their professional growth and self-fulfillment goals in mind, we provide our staff with a selection of trainings, mentoring sessions and coaching programs to allow them to take their knowledge and skills a step forward towards innovation in their areas of expertise.

Tadmur Holding has a wealth of solutions at our disposal, whether it’s the wide variety of products, services and solutions that we offer; our knowledge and experience in the Qatari market; or our dedicated teams in their respective units. Through strategic and innovative thinking, we prioritize our clients’ requirements and eliminate any obstacles in the realization of their goals.

We look forward to doing business with you; and please do not hesitate to contact us for any enquiries and/or feedback using the below details:
